Family Support Nov 2015.....	58
Increase/Decrease.....	+35

Department of Family and Children's Services
Additional information for December 2016

The number in custody has decreased since we started using our *pre-custody staffing format*, which has prevented children from coming into care.

We are also using this format when we look at the children we currently have in care and asking the questions:

- 1) “what is preventing this child from going home?”
- 2) “is it unsafe for the child to return home?”

This is why we are seeing a reduction and we have been able to finalize several adoptions as well.
